GRAYLING, MICHIGAN, JULY 26, 1923

NUMBER 29

GUARD RESERVE CAMP FEATURE

TWO WEEKS' TRAINING AT
GRAYLING TO BE GIVEN
OFFICERS AND MEN.

From Detroit Free Press—One of the big features in this year's Michigan National Guard training camp at Grayling will be the reserve. Under authority recently granted, the National Guard of the United States can recruit a reserve of officers and men who will not have any duties to perform except during the two weeks training camp. These officers and men will not have to turn out to the weekly drills or perform any other military duty during the year except the duty at camp unless there is a national emergency.

The National Guard reserve is an important part of the army, as it will give the commanding officers of the various units in the guard an opportunity to recruit their units to full war strength in time of peace, and have the units ready to be placed on a war-time basis on a moment's notice in case of a national emergency.

Club House for Men. While the Michigan National Guard will not have as many reserve officers and men in camp this year, because recruiting for the reserve was started only a few weeks ago, it is expected that about 100 officers and men of the reserve will take advantage of this year's camp at Grayling. By next year, however, it is believed that every unit in the Michigan National Guard will be recruited to war-time strength with active officers and men and reserve officers and men.

Colonel John H. Shouten, commanding the 126th infantry, Thirty-second division, with headquarters at Grand Rapids, is going to furnish the enlisted men of his regiment with a club house for their use during their stay at the two weeks' training camp at Grayling this summer.

mer. Major George L. Olsen, of the regiment, has been at Grayling and has selected one of the mess halls formerly used by one of the units of the regiment, and it is being furnished up as a club house for the men. There will be vaudeville, boxing matches, band concerts, moving pictures and other forms of amusement for the men every evening in the club house. Prizes have been collected for the various field day events which will be held the last day in camp this year.

Colonel Shouten has also sent out a memorandum to every commanding officer in his regiment instructing them to inform all the officers and men in their units that visitors will be welcomed in camp this year. Colonel Shouten is anxious to have the parents and other relatives of the officers and men in his regiment visit camp this year.

Camp Arrangements Complete. The 126th infantry, Thirty-second division, many units of which are from Detroit, commanded by Colonel Milton L. Hinkley, have completed all arrangements for camp.

Lieutenant Cecil L. Fairchild, reserve corps, has been commissioned in the National Guard of Michigan and assigned to the Headquarters company, Sixty-third brigade, commanded by Captain James M. Southwick. Lieutenant Fairchild will accompany this unit to camp and take part in the annual field training.

Some records are being made at the Detroit Armory in obtaining recruits. Private Hardy, of Company C, 126th infantry, brought in 12 recruits to the company. Captain Newton, commanding Thirty-second division, Headquarters company, has organized his outfit as recruiters and obtained 18 recruits last Friday.

The advance details to Grayling have been made and the following officers and men leave on the first of August for camp: Captain Thomas A. Newton with 25 men. Captain Bradley, Lieutenant Brand and Lieutenant Engwall with service company less the band. There will be two officers from the staff of the Sixty-third brigade who have not yet been designated. Lieutenant Rine from the Special Troops, Thirty-second division, and Major Hanna, from the 107th Medical regiment, will go with the advance details.

Cleary to Make Inspection. Lieutenant Colonel David E. Cleary, inspector general, Eighty-second division, with one warrant officer, will leave for camp in advance of the troops for the purpose of making an inspection of arrival and detrainment. The efficiency of troops is determined by the manner in which they detrain and make camp as well as the work done after arrival.

First Sergeant Mueller, Company A, 126th infantry, leaves the company to go to Vienna, Austria, where he has won a scholarship in the Imperial College of Medicine. It is with regret that the company sees Sergeant Mueller go, but he has the best wishes for his success in his new field.

Captain William J. Niederpruem, U. S. army, will visit Detroit during the week and will be the guest of Major and Mrs. Max R. Baetcke. Captain Niederpruem was formerly the intelligence officer of the Thirty-second division and has also served with the 126th infantry.

SHARON MERCHANT SLAIN BY EMPLOYEE

QUARREL OVER SIMPLE MATTER LED TO FATAL SHOOTING.

Ernest F. Tidd, merchant and fishing resort owner, was shot and killed by Bruce Williams, an employee, at the former's home in Sharon, Tuesday evening, at about 9 o'clock. After the shooting Williams escaped into the country and is heavily armed and it is evident that he does not intend to be taken alive. Hundreds of men, under Sheriff Beaver of Kalamazoo, are searching for him.

The shooting occurred in the yard between the general store and home of the victim, and is the result of a quarrel between the two men, when Tidd reprimanded Williams for having left the farm gate open allowing the pigs to escape out into the woods. Williams, who had been in the employ of Tidd for over two years, became angry and went into the house where he got a shotgun and came out and fired three shots at Tidd, striking him near the heart, in the abdomen and in the right side. Any one of the shots would have been fatal. Tidd died instantly. Before Williams could be apprehended he went into the house and secured an automatic rifle and quantity of ammunition and escaped into the country.

Williams was seen at Riverview station Wednesday night, and close upon his heels was Sheriff Beaver and a large posse of searchers, the former, however, escaped before they arrived. Officers believe they will be able to apprehend the fugitive before night.

ond division, and Major Hanna, from the 107th Medical regiment, will go with the advance details.

Cleary to Make Inspection. Lieutenant Colonel David E. Cleary, inspector general, Eighty-second division, with one warrant officer, will leave for camp in advance of the troops for the purpose of making an inspection of arrival and detrainment. The efficiency of troops is determined by the manner in which they detrain and make camp as well as the work done after arrival.

First Sergeant Mueller, Company A, 126th infantry, leaves the company to go to Vienna, Austria, where he has won a scholarship in the Imperial College of Medicine. It is with regret that the company sees Sergeant Mueller go, but he has the best wishes for his success in his new field.

Captain William J. Niederpruem, U. S. army, will visit Detroit during the week and will be the guest of Major and Mrs. Max R. Baetcke. Captain Niederpruem was formerly the intelligence officer of the Thirty-second division and has also served with the 126th infantry.

FIVE TRAGEDIES.

A man struck a match to see if the gasoline tank in his automobile was empty. It wasn't.

A man patted a strange bull dog on the head to see if the critter was affectionate. It wasn't.

A man speeded up to see if he could beat the train to the crossing. He couldn't.

A man touched a trolley wire to see if it was charged. It was.

A man cut out his advertising to see if he could save money. He didn't.

CONG'N WOODRUFF COMING AUG. 2

ALSO SENATOR KARCHER AND
OTHERS TO TALK GOOD
ROADS.

Meet With Board of Trade at Noon
and Speak at Court Yard in Evening.

A telephone message from Senator Karcher of Rose City stated that he and Congressman Woodruff would like to have the chance to meet Grayling citizens on Thursday, August 2, to talk over matters pertaining to our general welfare.

Therefore it is arranged that these gentlemen meet with the Board of Trade at their regular Thursday noon luncheon at Shoppington Inn, and in the evening a meeting will be held in the Court yard where the visitors will discuss public issues.

All who so desire will be welcome to come to these meetings, and it is especially urged that there be a large attendance at the speaking in the Court yard. Congressman Woodruff hasn't visited Grayling for about three years and he says he is glad to have an opportunity to visit our people again. It is possible that Representative Nelson G. Farrier of Hillman will also be present.

LOCAL NEWS

Ask for Grayling made Ice Cream at the fountain. Purest and best.

Mr. and Mrs. T. J. Bieler of Detroit are guests of Dr. and Mrs. C. R. Keyport.

Miss Helen Wescott of Detroit is a guest of Mr. and Mrs. Marius Hanson at Lake Margrethe.

Mr. and Mrs. James Cassidy left Wednesday for Leech called by the death of the former's sister.

Miss Marion Paige of Traverse City is here visiting her father Mr. Morgan Paige for a few days.

Mrs. Peter Peterson is entertaining the Danish Ladies Aid society at Lake Margrethe this afternoon.

Some wonderful bargains in porch dresses at the Gift Shop. Come and see what you can buy for \$1.00.

Miss Margrethe Nelson returned Wednesday morning from a two weeks visit in Detroit and other places.

Mrs. Joseph Brosier of Afton is expected to come Sunday for a visit with her sister, Mrs. Thos. Trudo.

Mrs. Ruth Beck of Detroit arrived Tuesday to spend the summer with her parents, Mr. and Mrs. Victor Sorenson.

Mrs. Henrietta Phelps and son John left Thursday for Ortonville, called there by the illness of the former's father, John Coventry.

Peter, McEwen, Alfred Hughes, Carl Peterson and Holger F. Peterson and their families enjoyed a motor trip to Petoskey Sunday.

Mrs. George Tobin, and children Mabel and Jerry of Bay City visited her father John O. Goudrow and other relatives over last Sunday.

Miss Mollie Johnson returned the fore part of the week to Bay City after visiting her parents, Mr. and Mrs. C. B. Johnson since the fore part of July.

Mr. and Mrs. Charles Schreck, Mr. and Mrs. Charles Sullivan, Mr. and Mrs. A. W. McArthur, Mr. and Mrs. Neil Ford of Pontiac spent Wednesday at Gaylord.

Over Cameron was in Grayling last Thursday coming from Kalamazoo, and returned to that place the same day accompanied by Miss Beatrice Hoesli who is visiting him this week.

Mrs. Esbern Hanson entertained with a tea Tuesday afternoon for the pleasure of Mrs. Holmes of Ypsilanti who is a guest in her home at Lake Margrethe.

Mr. and Mrs. Jensen Ziebell have returned from Niles, Mich. to make their home in Grayling. They are visiting the former's parents, Mr. and Mrs. Robert Ziebell.

To honor Miss Virginia Hanson of Los Angeles, Calif., who is visiting her father, T. W. Hanson, Mrs. Oscar Schumann entertained 12 girls and boys Wednesday afternoon.

Miss Bessie Brown accompanied by Harry Trudo left Saturday night for Saginaw, where the former is spending a couple of weeks, visiting her sister Mrs. Bert Scholz. Mr. Trudo expects to return home today.

Mr. and Mrs. Charles Schreck are entertaining Mr. and Mrs. A. W. McArthur and children and Mr. and Mrs. Neil Ford of Pontiac. Mrs. McArthur is a daughter of Mr. and Mrs. Schreck and Mrs. Ford is a sister of Mr. Schreck.

Mr. and Mrs. Lloyd W. Masters of Detroit are guests of Mr. and Mrs. E. N. Darveau for a couple of weeks arriving Saturday. They were accompanied by the former's parents, Mr. and Mrs. W. C. Masters, also of Detroit, who went on to Alpena Tuesday to visit relatives.

Grayling Board of Trade is endeavoring to get the District Press Association to hold their next annual meeting in Grayling. This will be in the latter part of August. This will be a fine compliment to our city and we are sure we can show the Editors a good time here.

Mr. and Mrs. Thomas Trudo, son Henry and daughter Beatrice, motored to Cheboygan last Thursday. They were joined at Gaylord by Mrs. Harvey Trudo, who accompanied them.

Dr. Don M. Howell, formerly of Grayling but now of Detroit is spending the week here, visiting old friends and taking in some of the fishing. Before arriving here he spent a couple

MISSING SAGINAW MAN FOUND

WAS LOST IN WOODS NEAR BIG
CREEK.

J. J. Tompkins Wanders Away From
Whip-Poor-Will Club.

James J. Tompkins, Cadillac auto dealer of Saginaw who became lost in a swamp near Big Creek, Sunday forenoon, was found Tuesday afternoon. He had wandered away from Whip-Poor-Will club house where he was a guest of Guy F. Garber, Buick dealer, also of Saginaw. This episode caused considerable excitement, not only in this vicinity but the whole of Michigan was stirred up over the affair.

There were about fourteen guests at Whip-Poor-Will for several days and the party was preparing to leave for home Sunday forenoon. Tompkins had loaded his baggage into his auto preparatory to leave and while waiting for the others strolled down to the river and along the edge of the swamp. The club house is located on Big Creek near the North Branch, of the AuSable river, about 20 miles east of Grayling. When the party was ready to leave Tompkins was missed. Search was made for him thruout the club house and surrounding premises but he was not found. Thinking he may have walked to one of the neighboring clubs, investigation was made but he was not to be located at any one of them.

His friends began to be alarmed and searching parties were formed. Tracks were found in the nearby woods that answered the description of the shoes worn by Tompkins. These were followed and it was found where he got out of the swamp and went into the pine plains region. Here his tracks were lost entirely. By that time it was getting evening and watch parties were stationed about the woods to look for a signal fire but it did not develop. By the next morning people were getting pretty excited and a call for aid was sent out and before night about fifty men had joined in the search. The State Game department at Lansing ordered its game and fire wardens to extend every assistance; also a pair of blood hounds were secured from Mason, hoping they would be able to track the man, however the long ride by auto did not agree with them and they were too sick when they arrived here to be of any service.

By Tuesday the woods were full of searchers. It is reported that 34 autos from Saginaw arrived Monday night with friends of Tompkins who aided in the search. It was not until about four o'clock Tuesday afternoon that he was found.

It appears that Tompkins must have been mentally unbalanced, due possibly from the excitement of being lost, for he met several persons but did not inform them that he had lost his way and ask for help. He stopped at one farm and visited with the owner, asking how many acres he had and how the crops were growing, etc., but gave no indication of being lost. Had he done so he could easily have been directed back to the club house.

Monday afternoon it rained and he became soaked with water and broke into a cabin where he took off his clothes and hung them up to dry and went to bed. The next morning he was too feeble to get up, and it was here that he was found by searching parties. He was taken to the Garber cottage where he completely broke down and cried like a baby, telling his story best he could in an incoherent manner. Dr. Pool of Grayling was called and reports that the patient is little the worse off for his experience. His feet were badly swollen and there was a large blister on one heel.

Mr. Tompkins is about 45 years of age and is of a happy disposition and has hosts of friends as is attested by the way they hurried to his relief when they thought he was in trouble. He feels very badly over the affair and because of the trouble he caused his friends.

of weeks of his vacation in Wisconsin and Minnesota, and attended some clinic work in the Mayo brothers institution, at Rochester, Minn.

Mr. and Mrs. Edward Hagle and daughter Miss June of Vassar have been visiting the latter's parents, Mr. and Mrs. R. D. Bailey. Miss Janice Bailey who had been visiting them at Vassar returned to Grayling with them. The party left Wednesday for Mullet Lake to spend a couple of weeks resorting.

TO HOLD AGRICULTURAL EXHIBIT.

The fair exhibit committee of the Board of Supervisors of the county will make the usual exhibit of Crawford county products at the fairs this year but before doing so will place on exhibition in the G. A. R. hall their display.

Already producers are selecting stock for the exhibit, and when the time comes Crawford county will make a showing that will not be surpassed anywhere in Michigan.

This year they captured second prize at the State fair at Detroit. All county exhibits will be excluded from that fair this year however Crawford will be represented at Saginaw and Bay City fairs.

Arrangements have been made for placing this collection on exhibition at the G. A. R. hall before taking it to the fairs, when the home people may witness the work of our home farmers. We are sure this is going to be a big fall feature in Grayling this year, and possibly be the forerunner of an annual exhibit.

COUNCIL PROCEEDINGS.

Held on the 9th day of July, 1923.

Present: C. A. Canfield, J. H. Wingard, C. O. McCullough, Dan Hoesli, M. A. Atkinson, Frank Sales.

Absent: Eva E. Reagan.

Moved by Sales, supported by Atkinson that the president appoint a special committee of three to investigate and obtain any available information relative to the City Water Supply costs, and methods employed in the distribution of same, from such plants as are in practical operation or from any other source from which such information may be obtained, which shall be submitted by this committee to the council for further consideration.

Yea and Nay vote called. All members voting yea. Motion carried.

Trustees, J. H. Wingard, Dan Hoesli and Frank Sales were appointed as a special committee in accordance with the preceding motion.

Moved by McCullough, supported by Wingard that the Claims and Accounts on file be allowed as charged and the clerk be and is herewith authorized to draw orders on the Treasurer for the same in the amounts as herein stated.

Yea and Nay vote called, all members present voting yea.

Motion carried.

Grayling Electric Co., May service and supplies \$146.70

Selling Hanson Co., supplies 2.40

Measles

Many persons think of measles as a harmless disease and intentionally expose their children, yet measles kills more people in the United States every year than does smallpox. As most experienced mothers know, measles has the same common cold with a slight sore throat and a slight running of the nose. After three or four days, the rash appears.

The United States public health has issued a booklet which tells how to diagnose this disease and contains suggestions to prevent its spread. Readers may obtain a copy of this booklet free as long as the free edition lasts by writing to the United States Public Health Service, Washington, D. C., asking for "Reprint 780."

"Twelve Labors of Hercules." The destruction of the Nemean lion; destruction of the Lernaean hydra; capture of the Erymanthian boar; capture of the Ceryneian stag; destruction

of the Stymphalian birds; cleaning of Augean stables; capture of the Cretan Bull; delivery of the horses of Diomedes; delivery of the girdle of Hippolyte; shipping of the cattle of Geryon; procuring the apples of the Hesperides; delivery of Cerberus in the upper world.

A Sign of Failure. When a man is forever talking about how people are trying to "down" him, that settles it; he's a failure.—Atch son Globe.

Daddy's Evening Fairy Tale

BY MARY GRAHAM BONNER

MIDGIE MOONBEAM

Billie Brownie had taken his ship and had gone up to have a talk with Midgie Moonbeam.

Midgie Moonbeam loved her stories and she loved to tell stories and Billie Brownie liked to hear the news of Moonair as she liked to hear the news of Brownie-land.

"Now I have told you lots of the Brownie-land news," said Billie Brownie, as he sat on the edge of Mr. Moon's crescent shape which turned up somewhat so that Billie felt safer than he would otherwise have felt.

"Yes, and I would be glad to hear the news of Moonair. I think that is more correct than saying Moonland."

"But tell me, Midgie, is there never any danger of falling down to the earth?"

"None whatever, Billie Brownie," said Midgie Moonbeam. "There is never any question about the moon falling to the earth, and he wouldn't treat his visitors any differently from the way he treats himself."

"That wouldn't be polite at all, and Mr. Moon is very polite."

"You need have no fears, Billie Brownie. Tonight, as you see, there is a great deal of beauty in the sky. That is because we are all going to have a banquet later on."

"You must stay for the banquet, too."

Billie Brownie was very much pleased. He could imagine nothing nicer than a banquet up in the moon. Even if he didn't get anything to eat it would be fun to see all the guests.

"From down below," said Midgie Moon, "it looks as though Mr. Moon in his crescent suit was floating in lovely fashion upon a pool of deep-blue sky water. This looks as though it were surrounded by very dark sky-shores and as though there were hills and shores and water up in Moonair tonight."

"Mr. Moon is looking very, very bright and shining. He has had his suit pressed and cleaned by the air tailors, Mooncloud & Co."

"Then the little Fleecy Cloud Fairies have come out and are dancing around making ready to come later on to the banquet."

"The other evening," Midgie Moonbeam continued, "we had such fun here."

"Mr. Moon had been asked to look at the new frocks of the Blue Cloud and the Gray Cloud young ladies. So Mr. Moon said the best way for him to do that would be to have the young Cloud ladies walk up and down in front of him so he could see them properly."

"They had no idea what was happening down on the earth and they said:

"See the blue and gray clouds going back and forth over the moon."

"Wasn't that a joke? And dear me, dear me," said Midgie Moonbeam, "another very funny thing happened!"

"Some one asked a little boy named Eugene if he didn't think the moon was perfectly beautiful that evening and he said:

"Oh, yes, it's a delicious-looking moon."

"Mr. Moon did laugh when I told him that. It made him seem as though he were a piece of pie or something like that!"

"But now it is time for the banquet. Come along!"

Billie Brownie followed Midgie Moonbeam. They climbed up a little ladder which was held by many of the Moonbeam grandchildren while Billie and Midgie went up it.

When they reached the top they were right in the center of Mr. Moon's dining room.

He had a big dining-room table set with all kinds of strange dishes. It was covered with a beautiful fleecy cloud tablecloth.

He welcomed Billie Brownie and Midgie Moonbeam and then the other guests began to arrive. Many of the Clouds and Moonbeams were present and it was a very fine gathering.

And food? They had the most delicious of Moonair food, made by the Moonbeams. It was all cold food—quite lovely for a summer evening, and the midnight frosty ice cream was the best of all!

He Knew Too Well.

"Jones strikes me as a very promising young man."

"He strikes me that way, too; but he never pays me back."

Terms of Automobiles.

Dick, aged five, thinks in terms of automobiles rather than those of natural history. Startled by a dog, running swiftly and barking gruffly, he described the event vividly, exclaiming, "Daddy, he came tearing down the road with his cut-out open!"

Broken Quiet.

Little Beesie dropped an armful of her playthings. "Did you break anything?" asked her mother. "Only the nut, mamma," she replied. "and that's mended already."

WHY YOU ARE WHAT YOU ARE

By EDNA PURDY WALSH

DANGER AREAS IN THE HUMAN HEAD

When there is a large development in the head-at the top of the ear—the region of destructiveness—many characteristics automatically follow the growth of the brain in that area.

If the upper forehead and front top head are not well developed, where lies benevolence and honor, the man with large destructiveness is a danger to civilization.

Polson, murder, revenge, brutality and anger generate in destructiveness. When the higher faculties call out mental interests in an individual with such development, he is a great force for good, but when they are missing in his forehead, top head, a loveless

mouth, deceitful, half closed eyes, and a pointed ear at the top, he is the man who fills the jails and creates vice.

Many people have a particular talent for swearing and cursing. They take it as does a duck to water from their earliest childhood days. The next time you hear an individual cursing for two minutes without a single repetition, look at his head at the tip of the ear. You will find it well developed, and the top head at the center, veneration, will be low.

If destructiveness is well developed, but other faculties, such as constructiveness or good reasoning powers, combined with adaptability, are also present, the individual makes a powerful worker in the business world.

A PSYCHOLOGICAL RAILWAY

The late L. A. Vaught, master character analyst, built his pupils a psychological railway to impress upon their minds the location of faculties.

The road starts out from amity-ness in the back neck, for this is the region of polygamy, and he therefore named it Salt Lake City.

In front of the ear is the faculty of alimentiveness, the region of digestion, and fondness for eating, and he named the station Milwaukee.

Above, and in front of the ear at

reference to another development of the head or body should be judged arbitrarily, though it is generally a rule, for instance, that a weak mouth is placed in a head low at the point of firmness in the top of the head above the ears, etc. The features and hands conform to the head shape.

YOUR EAR REVEALS YOU

Here is the balanced ear, belonging to a man balanced in mind and body neither too tall nor too short, not a genius, but possessing a balanced temperament, in social, business, religious and home affairs.

In studying the ear, the upper part represents the mentality, the middle part the executive power, the lower part the vitality and physical functioning. When the lower part of the ear is small and the upper large the person is mental, sensitive, and weaker in a constitutional strength. A wide head, heavy base of the ear, pointed at top, goes with a selfish nature. A good illustration is the cat.

The ear of the degenerate is ill formed, and sometimes turned inside out as it were.

The ear that lies close to the head usually belongs to an easy-going, abstract, quiet and unpretentious person. The long, large ear, well devel-

top, the regions of destructiveness and acquisitiveness lie. Chicago, with its stock yards and money making, was given as a symbol.

Above the outer eyebrow, approximately two inches, is the region of constructiveness—invention, designing, manufacturing—are the work done by this faculty, and Pittsburgh is its appropriate station.

Boston represents the intellectual region where memory, comparison, causality and observation lie in the forehead. The intellect has no emotion, nevertheless it is the big filter, or understanding, where all emotions must pass for cool judgment and application, and if it is weak, while the other faculties are strong, the efforts of the individual will not be directed or carried out with foresight, and are sometimes more dangerous than useful.

CONTRAST THESE TWO HEADS

Fundamental character reading is founded on body construction, and the leading chemicals in that body.

The square-headed man has large bones. Bones are the strongest element of the body. They are made of

calcium, and the square-headed man will be very fond of foods such as milk, cottage cheese, figs, etc., in which there is much calcium. Calcium gives

strength of mind and continuity of thought, and as a result the square-headed man invents, is able in science and heavy work. Engineering, physical science and mechanics interest him. He is never in a rush, and he does everything with mathematical accuracy.

Contrast him with the round-headed man, large from ear to ear. He has a low top head where the reasoning faculties are located. He belongs to the vital temperament, where flesh predominates over bones and muscles, and he will be found eating foods which contain carbon, hydrogen, nitrogen and oxygen. The vital man is the consummator—not the producer. Flesh-making foods eat out do not produce long continued thought. He makes a good hotel keeper, butcher and dealer in foods and drinks because his interest lies along those lines. Vital temperament people are good natured, mirthful, lovers of pleasure and entertainment.

They are often good salesmen because of their warm hands and cheerful dispositions.

HOW TO STUDY THE FACE

For practical character reading from the features the face may be divided into three sections: From the chin and jaw, mouth and upper lip the emotions are indicated. The affections, the appetites, the temper, etc., are indicated in the lower region of the face.

The middle portion of the face indicates the executive region. A face long in the central region belongs to a powerful determination and strength in undertakings, while the short, central face is more feminine, emotional, and not as powerful as a leader in the business world.

From the eyebrows to the top of the forehead is the intellectual region. Observation, understanding, reasoning, memory, and construction are shown by the relative development of the forehead to the rest of the face. States of mind are presented in the eye.

All character analysis is relative. No single feature analyzed without

reference to another development of the head or body should be judged arbitrarily, though it is generally a rule, for instance, that a weak mouth is placed in a head low at the point of firmness in the top of the head above the ears, etc. The features and hands conform to the head shape.

YOUR EAR REVEALS YOU

Here is the balanced ear, belonging to a man balanced in mind and body neither too tall nor too short, not a genius, but possessing a balanced temperament, in social, business, religious and home affairs.

In studying the ear, the upper part represents the mentality, the middle part the executive power, the lower part the vitality and physical functioning. When the lower part of the ear is small and the upper large the person is mental, sensitive, and weaker in a constitutional strength. A wide head, heavy base of the ear, pointed at top, goes with a selfish nature. A good illustration is the cat.

The ear of the degenerate is ill formed, and sometimes turned inside out as it were.

The ear that lies close to the head usually belongs to an easy-going, abstract, quiet and unpretentious person. The long, large ear, well devel-

oped in the center executive region, denotes the man of action, interested in work, variety, and all the physical world.

Small, shapely ears, round and thin at the top are mental ears. Their texture is delicate as is also the constitution they belong to. The man of muscle has muscular ears, and the man of fat predominance in his development over brain has low set ears, also fat, with the lower part large.

Cure for Insomnia.

If you cannot sleep eat a fair-sized raw onion sprinkled with a little salt just before you go to bed at night. A slice of bread and butter tastes well with it, while a sprinkling of lemon juice makes it more palatable to some people. This is also an excellent tonic for a muddy complexion.

Out of Reach.

When the meek inherit the earth, they will come into possession of a lot of problems no meek man can handle.

Machine to Sell Milk.

A London resident has invented a coin-in-the-slot machine to sell milk.

Her Own Words

"Coming to the end of his harangue, an English lawyer said, 'and what, gentlemen, did the poor woman say to the magistrates? I will read you her very words, and I think you will agree with me that they bear the stamp of conscious innocence.' He kelved the depositions and turned them over."

"Let me read you her exact words. Ha! Here we are. Oh! It's! Well, gentlemen, this uneducated woman

FRIENDS NOTICED IMPROVEMENT

Wonderful Results from Lydia E. Pinkham's Vegetable Compound

Beloit, Wis.—"My female trouble was brought on by overwork. I had worked in stores and had to do heavier work than my strength could stand, and had to be on my feet most of the time. Finally I had to give up my work entirely and stay at home. Doctor's medicine didn't give me much relief, and my mother wanted me to take Lydia E. Pinkham's Vegetable Compound. I took a couple of bottles of it and thought it didn't help me as much as it should, so I gave it up to try something else. Nothing I took helped me much, so I finally decided to give the Vegetable Compound another trial and to take enough of it to make sure it would help me. I have taken it over a year now and it has brought wonderful results. I have gained from 35 to 110 pounds and am keeping house now. My friends all notice the change in my health. I will be glad to answer all letters that women write to me about the Vegetable Compound."—Mrs. W. G. MONSON, 1515 Park Ave., Beloit, Wis.

Mrs. Monson is willing to write to any woman suffering from such troubles.

LOCAL NEWS

Eastman Kodaks and films bring home the good pictures.

Central Drug Store.
Mrs. Katherine Loskos returned last Wednesday from Grand Rapids after a three weeks visit with relatives. Her daughter, Mrs. Edward Morrissey accompanied her home for a visit.

In the Base Ball game recently between Cheboygan and the Soo, the game ended in a 2 to 1 score, Cheboygan winning in the last frame bringing in two runs. The Soo Evening News described it as wonderful ball playing witnessed by 600 fans. "Babe" Laurent pitched for Cheboygan and The Soo Evening News says of him: "Babe Laurent, who is not a stranger to Sault fans, was on the hill for Cheboygan. Laurent pitched his best ball six years ago in the 38th Infantry uniform where he was stationed at Fort Brady. He worked like a Trojan yesterday and held the Sault to six hits and allowed but one run and outside of that only one Sault man reached third base. He fanned ten." Only one error was made during the whole game.

Large assortment of Bathing Caps of the famous Miller make.

Central Drug Store.
Mr. and Mrs. C. M. Morfit entertained a few friends at Bridge Friday evening. Mr. and Mrs. Oscar Schumann held the high scores.

Thirty-six ladies and gentlemen were guests at a beautifully arranged Bridge party at the home of Mr. and Mrs. A. J. Joseph Wednesday evening. The house had been made very attractive with flowers and ferns. Everyone present enjoyed the evening very much. High scores were held by Mrs. E. H. Gillett, Mrs. Holger Peterson, Dr. C. A. Canfield and Holger Peterson.

Get out your yard sticks and place your thumb on 22 1/2 inches and you can see just how long the green bass measured that was caught by C. W. Lydick at Lake Margrethe last week Friday. It was some bass—a small mouth green, and weighed six pounds and three ounces. Around the body it measured 12 inches. A three or four pound bass is considered a large one but they would only be "pickers" compared to the one caught by Mr. Lydick. It was a real beauty and would be the joy of any angler. Mr. and Mrs. Lydick reside in Dayton, O., and are guests at the J. E. Richards cottage on the west side of the lake.

Next Sunday there will be a base ball game between the Rainbows, formerly the local high school team, and the Roundhouse crew, who last Sunday defeated the Switchmen. The game will be called at 2:30 o'clock. Everybody invited.

10:00 o'clock to spend the day with this grand old lady, who was celebrating her 94th birthday. Among those who were present are Mr. and Mrs. P. C. Peterson, Ernest Larsen, Mr. and Mrs. Nels P. Olson, Ernest and Lester Olson, Mr. and Mrs. N. Schjotz, Mrs. Alfred Olson and two children, Mr. and Mrs. Esbern Olson and two children, Mr. and Mrs. Holger Hanson of Grayling, Mr. and Mrs. Waldemar Olson and two children of East Jordan; Mr. and Mrs. Glen Robinson and six children of Michelson, and Mrs. S. S. Phelps and daughter Virginia of Detroit. All report a most enjoyable time.

A reunion of the Dutton family is being held this week, a number of out-of-town guests having arrived to take part in the festivities. Mr. and Mrs. E. F. Dutton reside in Grayling near the banks of the AuSable and their guests are enjoying a camping party while here pitching their tents near their home. Among those present are Mr. and Mrs. A. W. Pattinson and son Russell of Riverside, Calif., Mr. and Mrs. H. H. Walker and daughters Ethel and Florence of Chicago; Mr. and Mrs. N. B. Dutton, Mrs. William Dutton, Sr., and Mrs. Frank Wattier of Jackson; Mr. and Mrs. Clark Simmons and daughter Luella of Battle Creek; Dr. and Mrs. C. B. Wilcox and daughter Virginia of Grass Lake, Mich., Mr. and Mrs. Earl Dutton and son Mason of Roscommon, together with Mr. and Mrs. Len Isenhauer and family of Grayling. The affair was given in honor of Mr. and Mrs. Pattinson's visit here from California, the latter being a daughter of Mr. Dutton. One of the pleasing features of the week's festivities was the celebration of the 10th birthday anniversary of Miss Mabel Isenhauer of this city, granddaughter of Mr. Dutton. She was the recipient of a nice gift of money, a birthday cake decorated with ten candles, and made happy with a birthday party Tuesday evening. The party are having a very enjoyable time in Grayling.

CLASSIFIED

WOMAN WANTED FOR HOUSE-work and care of child. No washing. Inquire at Creamery. Henry Klein.

Jam & Jelly Making now an exact science

Fresh Fruits are PLENTIFUL! Use the short CERTO-Process for making jam and jelly with Berries, Cherries, Peaches and other fruits in season. You will find they are the best jams and jellies you ever tasted.

CERTO is sold by grocers everywhere or sent postpaid for 35 cents.

1 MINUTE'S BOILING
2 POUNDS OF FRUIT
3 POUNDS OF SUGAR
4 OUNCES OF CERTO
5 POUNDS OF JAM

Wrapped with every bottle is a recipe booklet which tells the story.

Douglas-Pedini Corporation
24 Canale Bldg., Rochester, N. Y.

CERTO
(Sure-Jell)

No reason now her tongue to tell
That old story "It did not jell!"
Her jam's now perfect—jelly, too
She uses CERTO—so should you!

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE consists of an Ointment which quickly relieves by local application and the Internal Medicine, a Tonic, which assists in improving the General Health. Sold by druggists for over 40 years. E. J. Cheney & Co., Toledo, Ohio.

Red Crown

The High-Grade Gasoline

Adds to the Joy of Motoring

THE spirit of the day is to be out in the open; to seek the by-places; to get closer to nature; here today, there tomorrow.

Hard roads and automobiles have made it possible for one to do all of these things in the companionship of his family.

The chief contributing factor to motoring is gasoline—the chief joy of motoring is to know you have a dependable gasoline in the tank. Red Crown, the High-Grade Gasoline, is dependable. The Standard Oil Company (Indiana) guarantees the uniformity of Red Crown.

With Red Crown in your tank your motor sings along the road; eager, purring, at a snail's pace or at high speed, as you please.

Red Crown is always the same, no matter where you get it, and you can get it everywhere—every few blocks in the city; every few miles in the country.

SERVICE

Announcement

THE STUDEBAKER CORPORATION OF AMERICA is pleased to announce to its customers, friends, and the public generally, its complete line of new

1924 Model Studebaker Cars

Avoiding the superlatives frequently used in automobile advertisements, the Corporation desires to faithfully state the facts concerning these cars and the reasons why the public should buy them.

THE CARS

In design, quality of materials, standard of workmanship, durability, refinements, performance, freedom from repairs, and price, the Studebaker 1924 Model Cars are distinctly the greatest intrinsic values the Corporation has ever offered.

Every improvement the safety and practicability of which have been verified by engineering tests is embodied in these new cars.

The Big-Six

THE BIG-SIX LINE comprises four models, mounted on the standard 126-inch chassis with 60 H. P. 3 3/4 x 5 inch motor:
7-passenger Touring Car - \$1750 5-passenger Coupe - \$2550
5-passenger Speedster - \$1835 7-passenger Sedan - \$2750
all prices f. o. b. factory

Refinements and a few minor mechanical changes have been made in the Big-Six, which has established an enviable record for five years. Our large production accounts for its low price. It is a car of the highest grade, comparable to the best.

The Special-Six

THE SPECIAL-SIX LINE comprises four models mounted on the standard 119-inch chassis with 50 H. P. 3 1/2 x 5 inch motor:
2-passenger Roadster - \$1325 5-passenger Coupe - \$1975
5-passenger Touring Car - \$1350 5-passenger Sedan - \$2050
all prices f. o. b. factory

Radiator, hood, cowl, and body changes have been made in the Special-Six, with minor mechanical changes and refinements in the chassis. The Special-Six has for five successive years added luster to the name-STUDEBAKER. It is one of the most satisfactory and finest cars on the market. It is as good in every respect as the Big-Six, except that it is smaller, and costs less to produce, and therefore sells for less.

The Light-Six

THE LIGHT-SIX LINE comprises four models, mounted on the standard 112-inch chassis with 40 H. P. 3 1/2 x 4 1/2 inch motor:
3-passenger Roadster - \$975 2-pass. Coupe-Roadster-\$1225
5-passenger Touring Car - \$995 5-passenger Sedan - \$1550
all prices f. o. b. factory

No body or mechanical changes, except refinements have been made in the Light-Six. Over 130,000 Light-Sixes have been produced in the new, modern \$30,000,000 Studebaker plant at South Bend, Indiana, under most economical and

almost ideal manufacturing conditions. In our judgment, it stands out as the greatest value and the closest approach to mechanical perfection in moderate priced cars yet produced.

THE REASONS WHY

With \$90,000,000 of actual net assets and \$45,000,000 invested in plants, Studebaker has ample physical facilities to manufacture most economically.

Studebaker's organization of manufacturing executives, engineers, metallurgists, chemists, inspectors, and skilled mechanics is second to none in the industry. The design of Studebaker cars and the workmanship upon them conform to the highest principles of engineering standards and mechanical practice known to the industry.

Best of Materials Used

Studebaker cars contain the finest known grades of iron, steel, aluminum, tires, electrical equipment, glass, bearings, etc. No better materials for automobile manufacture exist. Sheet aluminum has but one-third the tensile strength of sheet steel, and consequently, Studebaker uses sheet steel for its bodies.

By the manufacture of drop forgings, castings, stampings and the machining, assembling and finishing of motors, axles, frames, transmissions, bodies, tops, etc., and the consequent elimination of middlemen's profits, coupled with lower overhead factory costs per car arising from quantity production and low commercial expenses, Studebaker's costs are kept at an economically low point possible of attainment only by manufacturers with vast physical and financial resources.

Bodies Unexcelled

The bodies of Studebaker cars are not excelled in quality of materials and craftsmanship, by any cars on the market. The Coupe and Sedan closed bodies are magnificent examples of the coach builder's art.

Merit Wins

The sales of Studebaker cars for the past six years have shown each and every year a progressive increase, 81,880 cars were sold in the first six months of 1923 as against 60,053 for the same period last year. Only products of merit can make such growth.

The Studebaker Corporation of America

A. R. Erskine, President

Mrs. Walter Cowell returned last week from Detroit after visiting for a month with relatives.

Miss Agnes Havens has as her guest for a couple of weeks Miss Kathryn Lang of Bay City.

Mr. and Mrs. R. J. Legner are entertaining the former's sister, Mrs. George Green of Bay City this week.

Gingham dresses, all sizes, regularly priced from \$3.00 to \$4.50, now \$2.25, 10 days only at the Gift Shop.

John McClellan returned to Bay City Friday after spending a few days at the home of Mr. and Mrs. Daniel Hoesli.

Harry Robinson of Detroit is visiting number of weeks visiting Mrs. Robinson's parents Mr. and Mrs. Max Landsberg.

Wilfred Cohen of Detroit joined Mrs. Cohen here the fore part of the week to spend a few weeks at the Mrs. A. Kraus home.

Mr. and Mrs. Ben Shore and daughter Marjorie Jane of Bay City are guests of friends at Lake Margrethe. They arrived Saturday.

Village Taxes are now due, and can be paid any day during Banking hours at Bank of Grayling. E. L. Sparkes, Treas. 7-26-2.

Miss Lillian Gorman of East Jordan visited her sister Mrs. John Conway and family and her brother Morris Gorman and family last week.

Mr. and Mrs. Walter C. Nelson and two children of Gaylord were in Grayling Friday visiting the latter's parents Mr. and Mrs. Peter Nelson.

Miss Anna Peterson was in Gaylord on business Friday also visited relatives in Johannesburg. She was accompanied by her nephew Gordon Pond.

Schram's Ramblers furnished the music for the opening dance at McKibbin's pavilion at Prudenville Friday evening. Several from Grayling attended.

Dr. and Mrs. C. A. Canfield returned Monday from Gladwin where they had been visiting the latter's parents Mr. and Mrs. J. M. Miller over the week end.

Mr. and Mrs. August Engel and daughters Virginia and Matilda of Alba arrived Wednesday to visit Mrs. Engel's sister Mrs. George L. Stephan and family.

William Coles, who is working at the County experimental farm says he will be glad to get any job cultivating. He has all the necessary implements to do this kind of work and will give good service.

Mr. and Mrs. Albert Christe visited at the home of Mrs. Elizabeth Cameron Monday enroute to their home in Sterling from Escanaba. They made the trip by auto.

Sunday school at the Michelson Memorial church will be held next Sunday at 11:00 and will be in charge of Miss Alexander, who will give a talk on the lesson. We wish all interested to be present.

Mr. and Mrs. Carl Nelson, left Sunday morning on a vacation trip to Detroit to be gone a week. They were accompanied as far as Standish by Mr. and Mrs. David Montour and daughter Patricia Anne, who are visiting relatives for the week.

Mr. and Mrs. Carl Legner arrived last week from Bay City and expect to make their home here, the former having come to Grayling to enter the employ of the Du Pont company. Mr. and Mrs. Legner are making their home with the former's brother R. J. Legner, who is in the ice business in this city.

Mrs. Elizabeth Heenan of Romeo is a guest at the home of her sister Mrs. Elmer Matson and family until Thursday. She motored to Grayling Saturday with her son Kenyon and Miss Lucille Willard of Royal Oak who spent Sunday at the Matson home leaving for Otsego Lake Monday to visit the latter's parents for a week.

Mr. and Mrs. T. P. Peterson and family motored to Vassar Sunday to visit Mrs. Peterson's parents, Mr. and Mrs. C. M. Ross and other relatives. Mr. Peterson returned Tuesday, Mrs. Peterson and children remaining for a couple of weeks visit. They were accompanied to Vassar by Miss Nellie Loss who had been the guest of the Petersons for a couple of weeks.

Born to Mr. and Mrs. Harvey Wheeler on Monday, July 23rd a daughter, who will be known as Mary Ann.

Miss Marguerite Montour left yesterday for Detroit to be the guest of Miss Grace Loader until Monday.

H. L. Pardee of the Employers Indemnity Corporation, Kansas City, Mo., was in Grayling on business Tuesday.

Mrs. E. A. Bowman is entertaining Miss Laura McCarg of Detroit at Driftwood cottage, Lake Margrethe. Miss McCarg arrived last Friday.

Mr. and Mrs. Ernest Borchers are the happy parents of a 10 pound son born to them at Mercy hospital Monday July 23rd. Mrs. Borchers was formerly Miss Florence Stephan.

Mr. and Mrs. A. E. Michelson and children John and Jean arrived from Detroit, Friday and are at their cottage at Lake Margrethe for the summer.

Mr. and Mrs. James E. Richards of Dayton, Ohio, arrived in Grayling Saturday morning and are at Lake Margrethe, which has been their summer home for more than twenty years past.

Friday afternoon August 3rd, the Ladies' Aid society of the Michelson Memorial Church will meet with Mrs. Charles Canfield at her summer home at Lake Margrethe. Cars will be at the church at two o'clock to take the members to the lake.

A big sale at the Gift Shop. Hats, dresses, and kiddies head wear for the next 10 days. Mrs. B. A. Cooley.

Mrs. L. Lavignio and children of Detroit are enjoying a visit with her parents, Mr. and Mrs. A. E. Wendt and family.

Mrs. S. S. Phelps and daughter Virginia of Detroit are visiting relatives in Grayling, guests of her brother H. Hanson and wife, also other relatives and friends.

125,000 Rainbow advance fry were planted in the Manistee river at and near Riverview Tuesday by the department of conservation. These fry were from the Paris hatchery.

Miss Francisella Felling left Wednesday of last week to spend several weeks vacation in Detroit, Ann Arbor and Dayton, Ohio, visiting her friend Miss Margaret Phelps in Detroit and her aunt Mrs. A. H. Wetz in Dayton.

C. J. Hathaway, Optometrist of Pontiac, will be in Grayling August 22 to 26th, inclusive. Your opportunity to have your eyes properly fitted. Eliminate eyestrain from the school children's eyes and health, through correct glasses. 7-26-4.

Mr. Willy Peterson of Copenhagen, Denmark, arrived in Grayling last week, and has secured employment in one of the Salling Hanson company lumber camps. He says he wants to get acquainted with America and American people and expects to remain here some time.

Miss Marcella Sullivan, who has been visiting her grandparents, Mr. and Mrs. Frank Trudeau of Onaway for several weeks returned home Sunday morning. She is entertaining her friend Miss Freda Clemens of that place who accompanied her home and who will remain for a week.

Mr. and Mrs. Lorne Douglas of Ann Arbor arrived Monday to visit relatives, the latter expecting to remain for an indefinite time. They are guests at the home of Mrs. Douglas's sister Mrs. Elmer Olson, and are also visiting her mother Mrs. Ellen Failing, who makes her home with her son Allen on his farm in Beaver Creek township.

An article entitled "Painters Made, Not Born, Chattanooga Artist Says" recently appeared in one of the newspapers of Chattanooga, Tenn., together with a photograph of our old friend Nemesius Nielsen. Mr. Nielsen, who left Grayling a few years ago operates a studio in Chattanooga, where he is making a successful business of his art of painting.

Word was received by Grayling friends yesterday of the death of Mrs. Ayers, wife of the late Frank Ayers railroad engineer, who lost his life in the recent Cannonball wreck near here. Mrs. Ayers was ill and in a Detroit hospital at the time of Mr. Ayers' death, and since that time has been in a feeble condition, in Ford hospital, Detroit. The news of her death will be received with regret by the many friends of the family in Grayling, they having been former residents of this place.

E. V. Smith, Piano Tuner, in town this week. Orders left at Sorenson & Sons, Phone 1054, will receive prompt and careful attention.

Try the small packages of Whitman's summer candy: Peanut Brittle, Mints, Caramels and many others. Central Drug Store.

A few wonderful taffetas and canton crepe dresses at the Gift Shop, 1-4 off for next 10 days.

Mr. and Mrs. R. H. Gillett and Mr. and Mrs. O. P. Schumann enjoyed a motor trip to Charlevoix Sunday.

Mrs. Guy Peterson and twin sons of Johannesburg are visiting in Detroit where one of the twins, Guy VanDoran recently underwent a slight operation. The baby is getting along nicely.

Mr. and Mrs. Howard O. Scarlett and son Harold Owen of Detroit are visiting relatives and friends in Grayling, motoring here arriving yesterday afternoon. Mrs. Scarlett was formerly Miss Irene LaSprance.

Mr. and Mrs. Alfred E. Underhill, accompanied by their guests Miss Mae Underhill and Mr. James Brusky of Rochester, New York, who have been spending several weeks here, left early Monday morning by motor for Charleston, W. Va., to visit relatives of the Underhills. Mr. and Mrs. Underhill who are here from Long Beach, Cal., for the summer, will return to Grayling after a two weeks visit in Charleston.

Ask your grocer for Grayling made butter; fresh and pure.

Mr. and Mrs. Ernest Larsen left by motor Monday morning for Bad Axe to visit relatives for a week.

Russell Robertson is confined to his home with a badly sprained foot as the result of an accident last Sunday while driving his father's car. He with a couple of boy companions were driving to Higgins Lake, when the car hit a stump in the road and turned over. Russell's foot was caught so that it was badly wrenched and sprained. He was brot to Grayling by his companions and taken to Mercy Hospital where an X-ray revealed that no bones had been broken but later it was found that one of the bones of the ankles has been splintered. It will be three or four weeks before he will be able to be on his foot again.

The base ball game last Sunday played between the Roundhouse Rats and the Grayling Snakes (Switchmen) was a hard fought contest, the former winning by a wide margin, the score being 22 to 1. A number of followers of each side attended to root for their favorites, and they enjoyed many thrills. The battery for the Rats were Bennett and DeFrain, and for the

Snakes Cardinal, Nelson, and Cody. The Snakes had a number of chances to score but, were unable to get all the way around. The lone score of the Snakes was made in the ninth inning, when Cardinal hit the ball, for one station, then stole two bases and came in on a pass ball.

are the last word in quality. "When you think of candy, think of Lewis' Drug Store."

Plan to Capture World Markets for America

"We'll sell the world," said Dr. Julius Klein, director of the bureau of foreign and domestic commerce, shown here, third from left, with his assistant directors as they completed their preliminary work for the 1923-24 Hoover program for making the world America's market place. Left to right, they are: Thomas R. Taylor, Louis Dornier, Dr. Klein, O. P. Hopkins and Robert A. Jackson.

SOME SHORTHAND WORK

William M. Day of Washington, president of the Shorthand Reporters' association, standing beside 60,000 pages of shorthand which he personally recorded during the proceedings of the commission for the adjustment of foreign claims in London.

"SPIRIT OF MUSIC"

Here is the clay model by Albin Polasek, well-known sculptor, which is to be cast in bronze to adorn Michigan avenue in Chicago. It is called the "Spirit of Music." The statue is sixteen feet high and will be placed on a granite platform five feet high. Polasek thinks music is a sexless art and for this reason he has combined in his statue the strength of the male and the beauty and grace of the female form.

Curious Use for Ice.
Up to the present it has been possible to leave only small cavities in concrete, but a big advance has been brought about by a new foreign method. Pieces of ice that correspond to the measurements of the cavity required are embedded in the concrete mass, and small channels are left to allow the water to run off when the ice melts. The process is of particular advantage in reinforcing concrete with iron. The iron parts are not built in during the stamping, but are attached to the blocks of ice before the work is begun. The repeated moistening usually necessary in concrete work is not required in this process, for the melting of the ice makes up the loss by evaporation.

Foared for the Earth.
It was in the midst of a nose dive and Reginald, who was making his first flight, tugged frantically at the pilot's sleeve. "We better get away from here," he shrieked, "the earth's swelling up like a balloon and it's liable to burst any minute."

Just the Same.
"The modern family's idea of too many children is one," remarks an exchange. Same as a bachelor's idea of too many wives.—Boston Evening Transcript.

Cherokee Princess Is a Seer

Princess Walerka, of the Cherokee Indian tribe, who is a half-breed, her father being a French Canadian and her mother a daughter of Spy Buck, the Cherokee, has just proved before such research workers as Dr. Walter F. Prince, director of the American Society of Psychical Research, Professor Hodge and others, that she possesses peculiar powers of seeing into the future, and also delving into the past. Her ability to read minds is remarkable. She is seen here reading the mind of Mrs. John Westfield in New York.

Celebrating Green River Day

Starting with a pageant of the overland trail, in which pioneers, men and pony express riders took part, the "Green River Day" celebration, Green River, Wyo., finished with a good old-fashioned western barbecue. Photograph shows "Doc" Frye, famous cook, making coffee for 3,000 ranchers, shippers and railroaders.

Immigrants Thronging Into America

Already the new quotas of immigrants have been filled in the case of most foreign countries, and many will have to return to their native lands. Here are a lot of fortunate ones who have passed the examination at Ellis Island and are going ashore at the Battery, New York.

ITEMS OF INTEREST

In 1920 France, Italy and Belgium imported 304,000 tons of beef.

Modern ice skating rinks have grinders to sharpen the skates while the users rest.

Wool is used for the manufacture of artificial silk, rope, carpets and other fabrics.

The birth rate in the United States for the first six months of 1922 was 22.7 for each 1,000 population.

Canadian manufacturing establishments produce \$450 worth of products per capita annually.

With the completion of a new cable way tourists will be transported in 90 minutes from summer heat to arctic cold on Mont Blanc.

The average time taken by a bird to build its nest is about a week; but if the first one is destroyed a second home may be built in a day.

Frocks of Knitted Fabric;

Dresses for Little Girls

ARE you casting about for the ideal gown for summer wear? Something refreshingly cool, yet not of the flapper type, a frock that is apropos for any occasion, being dainty, yet not so dainty but that it is suited to the time and the place; a dress that "looks like new" at every wearing? For those who have had the good fortune or forethought to acquire one of the ultra smart modes fashioned of some one or the other of the new knitted fabrics, "dreams have come true."

Just because knitted textiles are so likable, not only are we catering to our fondness for them in that our

trancing girdle are points of interest in this costume.

An outcome for the fashions for knitted fabrics is the overblouse and jacquette made thereof. Even newer are the short loose coats of knitted yardage, which are so aptly finished in silk braid or bound with inch-wide self fabric.

The vogue of embroidery for the dress-up frocks of the very little miss is one that continues year after year. No other adornment seems to be quite so in keeping with the dainty materials and simple lines of youthful garments, and consequently the styles in summer dresses for 1923, being no

Two Smart Styles in Knitted Frocks.

loveliest summer frocks are being created therefrom, but rumor has it that fabrics of this genre will be very fashionable this fall.

Just now interest centers about white midsummer frocks made of knitted fabric, for the solid white ensemble is registered as the style de luxe for the moment. The accompanying picture illustrates two smart styles which owe their attractiveness to the handsome knitted textures from which they are created.

The one to the right is made from drop-stitch tricot, and exquisite

exceptions to this rule, feature embroidery in many new and interesting uses.

In the little white voile party dress illustrated below, French knots are used to finish the neck and sleeves. Fancy smocking at the front and back adds an attractive touch. Around the hem of the skirt is a garland of tiny flowers embroidered in French knots in pink, yellow and blue.

Colorful needlework is also being extensively used on nursery frocks of fine gingham, cotton crepe and black sateen. On these the decorative de-

White Voile Party Dress.

knitted fabric featuring the openwork effect which is quite the rage this season. The open stitch being in stripes, gives chance for clever play in combining horizontal with verticals. Notice the novel sleeves.

The companion frock in the picture takes on more of a tailored aspect in that it is developed from the plain tricot, which is so firmly knit that it becomes as a rich, heavy, silk-lined material. However, it is truly a knitted fabric possessing all the virtues of being cool, just elastic enough to conform to grace, and for durable wear it has no peer. Plaited skirt, buttons adroitly placed, and an en-

signs are amusing. Animals, toys or familiar figures from fairy tales are embroidered, or appliqued, to ornament these otherwise very plain little garments. Dresser models are also colorful but use fine embroidered bouquets or garlands of fruits and flowers. Little tulle dresses are shown with large rosettes or frills of the same material about the skirt, the center of each rosette being made of tiny silk flowers.

Julia Bottomley
(© 1923, Western Newspaper Union.)

Kid Flowers.
Flowers of cloth painted in various colors are seen in unusual hats and gowns today. Kid flowers at the moment are having rather a vogue.

For Favors or Gifts.
For favors or for gifts, if one does not want to spend much money, there are attractive little shades or electric light pulls of painted material.

Novelty in Voile.
A new voile for this season has me-

taille dots sprinkled over its surface. It has also a border design in metallic figure.

Sleeveless Coats.
Sleeveless coats are to be popular this spring—particularly when worn with long-sleeved frocks on which there is much ornamentation.

Extremely dainty and inexpensive is the new lingerie of pastel tinted voile trimmed with very narrow, fine white tape.

The Shine for Mine

FOUR O'CLOCK IS TEA HOUR

Almost Sacred Institution in Buenos Aires, and Practically Observed by All Classes.

Tea is an institution in Buenos Aires. All offices swear off work temporarily at 4 o'clock each afternoon, while white-coated porters bring steaming cups around to the employees, and employers gather up canes and derby hats and saunter forth for the nearest tea salon. Because of the size of this fashionable promenade, Calle Florida, the Fifth avenue of Buenos Aires, is closed to vehicle traffic from 4:30 to 7:30, says the World Traveler magazine.

The city imbibes its coffee and tea publicly. In the mornings the streets are congested with waiters from bars carrying nickel pots of Brazilian coffee to tardy office clerks. The Avenida is swamped with other non-alcoholic drinkers who, by paying for a 10-cent cup of coffee at a sidewalk table, get a post of vantage for the purpose of ogling pretty women out on shopping expeditions.

SLEEPING IN ESKIMO LAND

Going to Bed Is a Simple Process and Sound Slumber Is Had Beneath Heavy Furs.

Going to bed in Eskimo land proves to be a very simple matter. A small soapstone lamp which burns seal oil, through a moss wick, is lit. This lamp is used for warmth as well as light. Nanook builds a tiny igloo against the inside wall of the room for the baby dogs, where they are packed away like two little muffs. Large polar bear and seal skins are placed on the snowy floor, everybody disrobes and cuddles down under great warm furs, and as the dim light of the oil lamp flickers against the snowy walls of the igloo, all that you can see of the Nanook family is a row of heads just showing beneath their great fur robes.

Outside the wind is howling and the snow is drifting into huge hills, and the dogs, powdered with the blowing snows, are curled up sleeping, says Travel Magazine.

A Deceiver.

It is easier to be resigned when we pause to consider that our 70 years is only part of 70,000,000.

"How intellectual that gentleman looks!" "Doesn't he? But he isn't—he writes poetry."

The Meat of the Wheat

STARCH is the "meat" of the wheat berry. It is the great energy-producing element of the grain. But, in order to do you any good, it must be thoroughly digested, and it is right here that such a food as Grape-Nuts renders special service.

Grape-Nuts, made from wheat and malted barley, supplies the meat of the wheat in most digestible form.

That is because in the making of Grape-Nuts a large proportion of the starch is converted into dextrins and maltose—forms into which all starch elements must be changed before they can be assimilated by the system.

Grape-Nuts not only digests easily, but also aids in the digestion of other foods.

Crisp, delicious Grape-Nuts with milk or cream is a complete food. It supplies the life-essential vitamin-B; also iron, phosphorus and other important mineral elements for nerve, tooth, bone and other body structure.

The daily use of Grape-Nuts is a form of health insurance which has demonstrated its value for more than 25 years.

Grape-Nuts FOR HEALTH

"There's a Reason"

Your grocer has interesting details of our offer of over \$7500.00 for Grape-Nuts Recipes. Ask him about it; or write to Recipe Dept., Postum Cereal Co., Inc., Battle Creek, Mich.

MUSSELS TO BE CULTIVATED

Adequate Supply of Raw Material for the Pearl-Button Industry is Object Sought.

An important step toward insuring an adequate supply of raw material for the pearl-button industry is being made by the United States bureau of fisheries, which, for the first time in history, is cultivating fresh-water mussels during the entire first year of their growth. The activity of mussel culturists heretofore has been confined to getting the young bivalves well started in life, during the brief period when they attach themselves to the gills and fins of fish. Now, however, as a check upon the effectiveness of their work, the fish will be kept in large wooden troughs until the mussels drop off, after which the latter will be retained in the wooden tanks for a year, the better to observe and facilitate their growth. The mussels will then be planted in their natural environment to complete their life cycle. Popular Mechanics Magazine.

Admired Mathematical Accuracy.

The ancient Egyptians had several markedly distinct intellectual and mental characteristics, the first and most unusual of which seems to have been a love of mechanical accuracy that amounted to a passion. Combined with their natural mechanical aptitude, this passion resulted in some of the most highly skilled work the world has ever seen. To cite but a few examples, in the Egyptian tombs the granite work was polished by hand to such an accuracy that its average deviation from perfect smoothness has been found to be 1-7,000th of an inch.—New York Tribune.

Rimrock Trail

By J. ALLAN DUNN

CHAPTER XIX

Molly Moves.

Sandy, replacing the blanket on Wyatt's face, examined his guns and started climbing up to the big bowl. Soon he discovered the narrow opening and proceeded cautiously.

To Sandy's right was perpendicular rock, to his left the curve of the blocking boulder with the skeleton tree topping it, withered in the cleft that had first nourished, then denied it nourishment. It gleamed silver gray, attracting his attention. As he gazed his sharp ears caught the tiny crack of a brittle branch. Instantly he dropped to all fours as a spurt of flame showed from the tree and a bullet whined over him, to smack against the rock and fall flattened.

Sandy did not move. He knew that, to the man firing, his fall might have seemed a hit, that he had beaten the missile by the space of a wink. He heard more broken boughs, as if his assailant were clumsily, assuredly, clambering out of ambush, and he slipped silently into position, rifle set down, both guns ready. There came a strange thrashing sound, a groan of mortal anguish, silence. If this was a trick, it was a crude one. Sandy waited. That groan, half sigh, half rattle, could not be mistaken. He half circled the boulder, gliding up a flattened traverse, and saw, lying outspread over a low bough of the withered tree, face to the moon, gun away from the curling hand, Butch Parsons.

With ready gun Sandy reached him, bent, turned him on his side. A bullet had ranged through both hips, shattering them. The spine must have been injured. There were puddles of blood that told the injury was paralyzing, passed by Brandon's men as dead, lingering like the traditional snake until sunset to see and recognize Sandy coming through the gap, to use his last remnant of life to pull trigger and so to die, the injured vertebrate giving away to the effort, the spark of life pinched out.

Sandy left him and returned to the gap. He could still read sign, plain as it was on every side. He found the side-gully, saw the cabin, saw Hahn's saddle horse grazing free, Blaze in the corral, the cabin door open with the moon streaming in. He had placed out the puzzle to his own satisfaction. Brandon and his men had arrived and, in hereford, they had run across Wyatt, procuring horses there and saving themselves the trip to Three Star. Butch's body was evidence that they had not been unsuccessful. Wyatt's that the fight had not been all one-sided, the surprise not perfect. And, if Pimmsoll had been warned, what had become of Molly?

He got an answer that made his heart stand still, then pound in a rush of action. On the floor, in the beam of the moon, lay the luck-piece, a few links of gold chain attached to the coils. Stopping for it, he brushed a strand of brown hair. Then he saw Grit's body beneath the table. Fury boiled in him, chilled to icy wrath and determination. He put away the coin and hauled out the dog's body into the moonlight. It was limber and still warm. Sandy rose from his squat and swiftly examined the cabin. He discovered a lantern with oil in it, which he lit. He had no fear of interruption. Before very long Sam and the Three Star riders would be along. The sight of Blaze suggested

Sandy Did Not Move. He Knew That, to the Man Firing, His Fall Might Have Seemed a Hit.

that Molly was not far away. If she had gone, by force, or her own free will, the probability was that her own mount and saddle would have been requisitioned.

He found warm water in a kettle; he had the first-aid kit with its bandages, iodine, lint. And, above all, he had Keith's silver flask, half full. He did not fail to note the empty bottles on the table, the blood marks where Pimmsoll's veins had sprinkled and Grit had stained the floor. He found, too, a button of horn with a fragment of black and white cheek, torn from Molly's riding coat in the struggle. Sandy's anger crystallized into one ambition beyond the finding of Molly, and that was to kill Pimmsoll, if possible with his hands. He pictured the struggle between the gambler and the girl, desperate on one side, brutal on the other, and, whether the stake had been won or lost, he resolved that Pimmsoll should die for that attack.

Now his hope hung on Grit. He

took the collic's head on his lap and examined the blow made by the butt of Pimmsoll's gun. It had laid bare the bone but he did not think it either splintered or fractured. Sandy knew that dog or wolf or coyote will lie in a torpor after being badly wounded and often recover slowly, waking from the recuperating sleep revitalized. But, if he could bring Grit back, he must make fresh demands on him.

He washed the wound on the head and poured iodine into it. He did the same with the hole in the leg, cleansing it from the dried blood and hair. It had stopped bleeding. He disinfectant it, stitched it, closed it, bound it with adhesive tape and strengthened it with a bandage adjusted as expertly as any surgeon could have done. He pried open the jaws with but little resistance and let the tongue slip back before he poured in a measure of Scotch and water between the canine and incisor teeth. For a moment there was no response, then Grit coughed, choked, swallowed. Sandy repeated the dose with less water. It went down naturally. Almost immediately he felt the heart stroke strengthen. Grit sneezed, opened his eyes and feebly thumped his tail as he licked Sandy's hand.

"Grit, old pardner," said Sandy seriously, the dog's head between his hands, "you're sure mused up a heap an' I hate to do it, but I got to call on you, son. Mebbe it won't be such a long trick, but I can't get by without yore nose, Grit. It's worth more'n all I've got. An' I know you're game."

Grit wagged his tail more vigorously and tried to get on his feet, but Sandy prevented him until the third dose was administered. Then he carried the dog outside to save him every foot of unnecessary progress, and set him down. The collic stood up, wabbling on one foot but able to stand, looking eagerly at Sandy, commencing to sniff the air. Sandy let him smell the coin, the strand of hair, the piece of cloth and, with his keenest sense stimulated with the perfume that stood to Grit for love, the dog wrinkled his nose and cast around, but he'd direct to Blaze and stood by the horse uncertain while Blaze nosed down at him.

"Carried out of the cabin, son," said Sandy. "We'll guess at Pimmsoll. He's got clear of the locality. Blaze knows but he can't tell. We've got to cast about." He picked up the dog again, puzzled, and looked about him in the gulch, suffused with moonlight. "There shud be soft dirt under those asps, let's give a look-see there."

They had not gone five feet into the trees before man and dog made a simultaneous discovery. For Sandy it was a heel-mark left by Pimmsoll, treading heavily under his burden, a slight depression enough, but plain to Sandy. Grit began to struggle in his arms. Molly's hair or body must have brushed against lower boughs at the same height that Sandy carried the wounded Grit and the scent still clung.

"They c'dn't go far in this direction by the looks of the place, Grit," said Sandy. "See what you can make of it." He put him down by the heel-prints. Grit uttered a low growl deep back in his throat, his ruff lifted. He started off, hobbling along, leading truly over rock or sand, into the cave where the split rock lay, its crevice black, the vine curving down into it like a serpent. Where Pimmsoll had laid her down Grit halted and raised his head, his tongue playing in and out of his jaws in his triumphant excitement, his eyes luminous, his tail waving like the plume of a knight. Sandy gently patted him, pressed him down to a crouch.

"Down charge, Grit," he whispered in his ear. "You've got it. You stay here." Sandy had left his rifle at the cabin when he carried Grit out, now he spun the two cylinders of his Colts, lowered himself into the split, holding on to the vine, looking straight into Grit's lambent eyes.

"Stay here, son," he said softly, and Grit licked the face now on a level with his own. "I'll be back."

Sandy had adventured more dangerous chances than this. He felt his legs dangle into space and his hands found a curving loop in the vine trunk that sagged slightly under his weight. Extended at full length, his toes touched bottom. Letting go, he dropped lightly and stole in blackness, the crevice above him showing a strip of azure light.

There was only the sound of dripping water. He ventured a match, holding it at arm's length in his left hand, flicking friction with his nail.

RED MEN SKILLED WOOD CARVERS

Many of the American Aborigines Were Experts, as Specimens Still in Existence Show.

an old trick. The match caught and began to blaze instantly in the still air. Low down and to the right, there showed a stab of flame, the roar of an exploding cartridge, the reek of high-powered gas seemed to fill the cavern. The bullet passed through Sandy's coat sleeve. If he had held the match in front of him he would have been shot through heart or lungs. His right-hand gun barked from his hip, straight for where the flame had showed, then to right of it, to left, above, his left-hand gun joining in the merciless probe. No second shot came in answer.

Sandy lit another match. Its flare showed him a sandy floor, slightly sloping, moist in one place, a charred stick almost at his feet. It was a pine knot, half burned, and he lit it easily, advancing toward the spot where he had flung the shots he knew had silenced whoever had fired

"Sandy, I Knew You'd Come in Time," She Whispered.

at the first match. He found Hahn crumpled up, shot through the right arm and a thigh, besides the other wound in his shoulder.

Sandy turned him over, brought Keith's flask into play. Hahn looked up at him and essayed a grin.

"You're game all right, Hahn," said Sandy. "You ain't the man I was lookin' for, but you fired first. I see I wasn't the first to plug you. Mebbe I can fix you up a bit."

Hahn shook his head.

"'Twouldn't be a mite of use," he said huskily. "No grudge against you, Sandy. I thought you one of Brandon's gang. They got Butch and me an' they're chasin' Jim Pimmsoll to hell and gone—over Nipple peaks—'if he beats 'em to Spur rock he'll fool 'em on the black—I couldn't ride—he left me here—with the girl—but the case is empty and the bank's busted—cashing—in—time and no chips."

He was wandering in his mind, speaking without control, but Sandy's mouth tightened at the mention of Nipple Peaks, relaxed again on the word "girl." He gave Hahn the last few drops of whisky. The dealer coughed violently, collapsed, shuddered, writhed a little and was still before he could answer Sandy's eager question about Molly.

He found her without much searching, rolled down a little slope beyond the crevice. Under the light of the torch, her eyes looked up at him. Her hair was in disorder, her raiment torn, her slender body wound about by the larlat rope, her mouth and chin hidden by the tightly drawn bandanna, but her gaze, reflecting the flare of the pine knot, held so much of welcome, of faith, of pride and courage, all sourced in something deeper, far more wonderful, moving beneath the surface like a well spring, that Sandy's heart swelled with glad emotion, knowing she was unharmed, knowing that his coming was no surprise, however welcome.

He found himself trembling as he untied her bonds and took away the gag from the mouth that lifted to his. She snuggled into his arms and, as the torch sputtered out, leaving them in the darkness, gave for the luminous beams that stole down from where Grit whimpered in joyous impatience, her hair showered down over both of them.

"Sandy, I knew you'd come in time!" she whispered.

One Thing He Knew.

Two witnesses were called in a case which concerned long-continued poultry stealing.

Nothing could be got from them in the way of evidence until the prosecuting counsel asked: "Will you swear, Mike Loneragan, that Thady O'Farrell has never, to your knowledge, stolen chickens?"

"Bedad, I don't know about that, your honor," said Mike. "But I do know that if I was a chicken, and Thady was about, I'd roost high."

Author of "A Man to His Mate" Etc.

Copyright, 1922, by J. Allan Dunn

He held her close and hard for a tense moment that gave all his world to his embrace.

"Molly—girl," he said brokenly, his voice broken with passion. Her hand crept up and a soft nuzzle cupped at his chin. He kissed the edge of it. His rose easily, still holding her and lifted her high to where she could reach the vine, swinging up after her, Grit dancing a three-legged reel of joy as they came up into the free air and the moonlight.

Blaze greeted them in the corral. Molly mounted, and Sandy set Grit on the saddle in front of her.

"Where's Pronto?" she asked. He told her.

"I figger Sam an' the boys'll be er-long soon," he said. "They may meet up with Pronto. Anyway, they'll likely bring Glood to me. She's up. An' Pronto'll be too tired for what I want him to do tonight."

She sensed the change in his voice. Intuitively guessed, but, womanlike, asked:

"What do you mean, Sandy? Aren't you coming home with me to Three Star? If it wasn't so far I'd love to go back just like this, without meeting anybody."

"Pimmsoll's makin' for Nipple peaks an' he's likely to get clear. Me, I ain't to head him off an' settle the account."

"Sandy," There was a plea in her voice that plucked at his heart strings. "He didn't harm me, Sandy."

"He tried to."

Her hand slipped to his shoulder, touched his cheek. She reined in Blaze. Sandy stood beside her, straight and stern, his eyes implacable.

"He ain't fit to live," he went on. "I wouldn't be fit to go back to Three Star where yore daddy-likes-an-know he was there in his grave while I let that coyote go loose. What'd you think of me if I let him slide?"

"I know," she answered.

A horse whinnied from down the ravine. Blaze answered.

"That'll be Sam an' the boys, Molly. He cupped hands and sounded a 'Yahoo!"

The answer came back clear through the evening, multiplied by the rocks about them.

"I'm afraid," she said.

"I know," I never was before. But—" She broke off, leaned swiftly down from the saddle and kissed him.

"Come back to me soon, Sandy," she said.

CHAPTER XX

The End of the Repe.

Pronto had chosen his own trail and gait back to the Three Star. It was Glood that Sandy rode under the stars toward Nipple peaks. He was alone, refusing any company of Sam or the riders. Molly's last kiss had been the key that turned in the lock of his heart and opened up to reality the garden of his dreams where the two of them would walk together, work together all their days. It could have meant nothing else. And she had been afraid—for him. Pimmsoll's living was a blot upon the fair page of his happiness. Though Molly, thank God, had come through unharmed, to Sandy the touch of Pimmsoll was a defilement that could only be wiped out by his death.

As he rode over the flimsy ridge of Elk mountain and saw the Nipple peaks gleaming above the black pines across the valley with Elk river gleaming in the middle, he realized that he had said nothing to Molly of Keith, of the shutting down of the mine and his own action in her name. While she had asked nothing of young Donald. For the time it had been as if the rest of the world had been fenced off from them and their own intimate affairs.

He compressed his knees and the mare answered in a lunge that stretched into a gallop, fast and faster as she reached the levels and sped toward Elk river. Sandy was not going to waste time looking for a ford. The mare could swim. He scanned the mountain toward the peaks, passed over the dark impenetrable places, surveyed the stretch of gently rising ground between the Elk and the trees and shifted his guns in their scabbards. His rifle he had left with Sam. Either Pimmsoll had not passed the peaks, was in the woods, or he had come and gone. Something told Sandy this last had not occurred. Travel beyond the peaks must have been hard and slow and roundabout for Pimmsoll while he had tangented fast for the cut-off.

(TO BE CONTINUED.)

Poor Picking.

Al Wright went West last summer to seek his fortune as a farm hand. But the fortune was rather elusive and Al was back home in a few months—as soon as the weather began to get cold.

"Well, how did everything go around home here this fall?" Al asked a friend. "Awful!" the friend exclaimed, "I couldn't make no money at nothing! Why, this fall I had to aback corn for as little as five cents a bushel!"

"Say, you're lucky!" Al told him. "That would've been big money out where I was this fall. Out there the corn crop was so this we had to shake by the mile to make anything at all!"

WOODRUFF GAINS 30 LBS. ON TANLAC

Fred J. Woodruff, 314 Trowbridge St., N. E., Detroit, Mich., who has run a tailor shop at 223 Michigan St., for the past twenty-three years, in telling of the way Tanlac has restored his health and renewed his strength and energy, said:

"I was absolutely all in, could scarcely eat anything whatever, was worried and depressed, and had lost all my strength. My stomach was bothering me terribly from a kind of gastric trouble."

"Well, Tanlac suited my case exactly. It put a sharp edge on my appetite, rid me of all that indigestion and gastric condition and soon sent me up thirty pounds in weight. From that good day till this I have been enjoying the best of health. My wife is now taking Tanlac as a tonic and is as pleased with it as I am."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.—Advertisement.

Surgery 3,000 Years Ago.

Experts are now at work deciphering a roll of papyrus 15 feet long. It deals with the Egyptian methods of surgery and medicine as practiced three thousand years ago.

RECORD IN CROPS

Western Canada Farmers Assured of Bountiful Yields.

Conditions Reported From All Parts of the Provinces Satisfactory in the Highest Degree—Pass Expectations.

From as early as April 17, when seeding became general throughout the Western Canadian Provinces, was there anything but optimism in the feelings of the farmers of that country. An uninterrupted chain of favorable conditions have bound the early seeding data with the conditions of the crop today. There were no setbacks. There may have been a hail storm or two with some ill effects through portions of the country, but the track they took was so small that the percentage of loss was almost imperceptible compared with the whole. Rains fell just when needed, the sun shone as if regulated by the farmer himself, the ground, generally, was in perfect condition and fully responsive. It is now a question of rivalry between districts and provinces which will produce the greatest results in crop yields and averages. Out in Alberta, whether it be in the north or in the south, that which gave assurance, in a well-prepared seed bed, of an excellent crop is passing expectation, and experts say there will be produced a crop away greater than ever before in the history of the province, and Alberta has had some big yields. Then, in Saskatchewan there exist the same conditions. The extreme north and extreme south will vie with the east and west in the story at harvest and threshing time.

Manitoba, while not boastful, complacently watches fields of wheat, oats, rye and barley that promise to set a new record for that province.

The fact is apparent that Western Canada will have a crop yield in all grains away ahead of any year in the history of the country. This will be pleasing news to the thousands in the United States, who have friends and relatives farming in that country. It should not be forgotten—that these crops will be raised on land that in many cases cost less than \$40 an acre and some of it was procured by merely homesteading. It is possible today to secure improved farms at very low figures, as well as raw or virgin prairie. Any Canadian government agent will gladly give information as to the condition of the crops, and dates when special rates may be had by those who wish to look over what is probably one of the greatest grain fields on the continent.—Advertisement.

FARM BUREAU NOTES
R. D. BAILEY
County Agricultural Agent

Test—Don't Guess.

(Another short chapter in the story: "Science and the Farmer.")

One of the very weak and wasteful points in farming is our habit of doing almost everything by guess—without much idea how it will come out. This is one of the things that helps largely in keeping us poor, and from having many of the good things of life that are really within our reach.

Easy-going, shiftlessness is at the bottom of it. We guess that the oats will not be smutty. We guess that the potatoes seed is so clean that we will not need to treat with corrosive sublimate. We guess that worms and other pests will not bother the fruit, to save ourselves the trouble of spraying, and have a lot of diseased cider, apples, and no good winter apples to sell in Grayling, while the supply for that town is shipped in from far distant points, and we holler because we can't sell our apples. We don't cull our hens, hence part of the

flock is kept at a loss. So on through the list. We make a lot of our own troubles.

The Babcock Test.

About a third of the cows of the United States pay a profit. A third, barely pay their way. The other third are kept at a great loss. A farmer keeping six cows might easily have two that paid a profit; two that barely paid their way; and two that failed to pay. If so, he makes nothing by keeping those six cows. The two that failed to pay take the profit made by the two that paid. This disposes of four cows out of the six. The other two that barely paid their way, of course, make no profit. So there is no profit from the lot.

No man can really tell whether his cows pay unless he figures the value of feed, and frequently weighs and tests the milk in order to know how much butterfat the cow produces.

The statement: "Oh, well, you can't charge my cows up with their feed, for I raised it on the farm, and I didn't pay out a cent; so all I got out of the cows must have been gain."

Let's never use such an argument again, for the labor put on that feed; the rent of land, the taxes, the interest on investment, the depreciation of tools and building all give that feed

a high value. It took a lot of fertility out of the soil, too. That has a larger value than some seem to realize.

The Babcock Test solved the problem of a rapid, accurate, inexpensive, and simple method of testing milk and milk products for fat. No other test equally as good is known. It was invented by Professor S. M. Babcock, Chief Chemist of the Wisconsin Agricultural Experiment Station, made public in 1890, and not patented by the inventor, but generously donated to the world.

One eminent authority states that the invention has added more to the wealth of Wisconsin than the Agricultural College has cost the state.

Many are Testing.

Many thousands of farmers are testing, and tens of thousands of cows are being tested for fat production, and many startling things are being found out about cows.

It is often found that what the farmer thought was his best cow is far from it, and what he thought was his poorest, when fed a proper ration, made the most profit.

This often happens here in Michigan. The Agricultural College Dairy Department reported in May that the purebred Jersey Cow "Bow" that was offered for sale at \$50 last year and

received an offer of only \$35, was tested out by the Cow Testing Association at Parma, near Jackson, Michigan. When given proper care and feed, "Bow" made 13214 pounds of milk and 592.5 pounds of butterfat in the year. This butterfat is equal to 740.825 pounds of 80 per cent butter. Thus "Bow" did more than three times as well, both in milk and butter, as the average farmer cow.

Testing Helps.

Cow testing furnishes the knowledge which enables the dairyman to cull wisely, feed properly, and climb the steps to success.

What Happened in Newago.

In Newago County, Michigan, a member of the Cow Testing Association milked 11 grade cows. His check for February was \$394. A neighbor, but not a member of a Cow Testing Association, milked 23 cows. His milk on the same market brought \$354. Some men milk cows for profit, while other men strip cows for pleasure and never get to the profit.

How To Do It.

You have a County Agricultural Agent. He has a Babcock Milk Test. He has sent every farmer in the county a return postal card offering to do all the cow testing you want

him to, free, if you send him the attached card and tell him you want him.

Better use your County Agent.

Doesn't Hurt The Cow.

Testing for butterfat in milk does not hurt the cow. Don't be afraid. All we want of the cow for that test is half a tea cup of her milk.

Get Your Money's Worth.

While the Agent is at your house testing, get your money's worth out of him, by talking about a plan for weighing the milk every so often; and about plans for more skillful feeding.

Some of the best dairymen in the world are doing this very thing, so you need not be ashamed to.

Use your County Agent.

Prosperity Follows the Dairy Cow. Test—Don't Guess.

FARMERS' PICNIC SATURDAY
AUGUST 18 AT CHARLES CORWIN FARM

Crawford County Grange No. 934, will hold their annual picnic at Oak Grove Farm on Saturday, August 18, at the home of Charles Corwin.

Everybody is invited; the farmers are invited to come and meet each other, and those that are not farm-

ers are invited to come and meet the man who helps feed the world.

A good lively program is being prepared. There will be a ball game between the married and single men, tug of war and races of all kinds.

But the best part will be the picnic dinner which will be at noon, (sharp) where you can enjoy the other fellows' eats. So everybody bring a full basket of good things to eat, supper will also be served for those who wish to stay for the dance which ends a big day. Coffee, cream and sugar will be served free.

The officers and members of the Farm Bureau with their families are given a special invitation to come.

7-26-4.

LOVELLS NEWS.

Mr. M. Teachout and a friend of Flint were out at K. P. Lake.

Albert Pochelon and family were in

Grayling on business Wednesday. Mr. and Mrs. Harry Simpson of Grayling are out at K. P. Lake.

Mr. George Brand and friends were in Grayling on business Friday.

H. S.

JAMES McDONNELL THANKS PUBLIC.

I have sold my interests in the Grayling Dairy Products Market to Mr. Henry W. Klein and in retiring wish to thank the people of Grayling for the patronage they have given me. The consumers and the merchants all have been loyal in their support and made it possible for my business and financial success. I am specially grateful to the B. of T. who used their influence in helping to build up my patronage, and in other ways. We have given the public a service that has long been needed here and we know the people fully appreciate it, and we trust the loyal support and patronage given me may be extended to my successor. Once more extending my sincere thanks, I am,

Sincerely yours,

James McDonnell.

This Simple Mixture
Helps Weak Eyes

Grayling people are astonished at the QUICK results produced by simple camphor, hydrastis, witch-hazel, etc., as mixed in Lavoptik eye wash. After being afflicted with weak, watery, red eyes for many years a lady reports the FIRST bottle Lavoptik helped her. One small bottle usually helps ANY CASE weak, strained or sore eyes. Aluminum eye cup FREE.

GRAYLING MAN'S LUCKY FIND.

Will Interest Readers of the Avalanche.

Those having the misfortune to suffer from backache, urinary disorders, gravel, dropsical swellings, rheumatic pains, or other kidney and bladder disorders, will read with gratification this encouraging statement by a Grayling man.

Geo. A. Collen, prop. restaurant, Spruce St., says: "My back ached terribly through the small part and was sore. The kidney secretions were too frequent in action and highly colored, but a box of Doan's Kidney Pills, which I got at Lewis' Drug Store, proved sufficient to cure the complaint."

Mr. Collen gave the above statement October 11, 1916 and on April 28, 1920 he added: "Doan's Kidney Pills fixed me up in good shape and the cure has lasted. I am glad to again recommend Doan's."

MORTGAGE SALE.

Whereas, default has been made in the payment of the money secured by a mortgage dated the 20th day of August, 1912, executed by James L. Baer and Emily M. Baer, his wife, to the Roscommon State Bank, a corporation of Roscommon, Michigan, which said mortgage was recorded in the office of the register of deeds of Roscommon county, Michigan, in Liber I of Mortgages on pages 59 & 60 on the 5th day of September, 1912; and Whereas, the amount claimed to be due on said mortgage at the date of this notice is the sum of \$329.75 of principal and interest and the further sum of Fifty dollars as an attorney fee provided for by statute, and which is the whole amount claimed to be unpaid on said mortgage; and no suit or proceeding having been instituted at law to recover the debt now remaining secured by said mortgage, or any part thereof, whereby the power of sale contained in said mortgage has become absolute.

Now, therefore, notice is hereby given that by virtue of the said power of sale and in pursuance of the statute in such case made and provided the said mortgage will be foreclosed by a sale of the premises therein described, at public auction, to the highest bidder, at the front door of the court house in the village of Grayling, Michigan, on the 19th day of October, 1923, at one o'clock in the afternoon; which said premises are described as follows, to wit:

The northwest quarter of the southeast quarter and the northwest quarter of the southwest quarter of section four, township twenty-five north, range four, west, Crawford County, Michigan.

Roscommon State Bank Mortgagee.

Dated, July 20th, 1923.
